Abstract (en)
[origin: EP1300361A1] The support for equestrian saddles has a frame (1) formed from two lateral panels (2) connected at their upper edges to two upper panels (3) which form a pent roof shape. The side panels have a cut out open at the base (4) to form an enlarged support foot at each end of the panel. The cut outs can be rounded without angles. The support can have metal corner supports to allow stacking.
