Abstract (en)

A manual locking system (1) for assemblings is disclosed comprising: a support body (3); an actuating lever (5); a support member (7) for locking elements that is connected to the actuating lever (5) and hinged to the support body (3); front securing and adjusting means (16) for the locking system (1), embedded into the body (3); and protecting means (22) that prevent inserting the operator's hands into the space between a centering lever (24) of the support member (7) and the body (3) during the system (1) closure operation. <IMAGE>
