Abstract (en)
[origin: EP1304710A1] The switch has roughly prismatic external template box (10) with a housing (A) having the switching assembly (24) and two large lateral surfaces (15,16) at the back forming the fitting wings (13a, 15a, 16a) .The connector has a body (31) that fits into the housing between the wings and to equip with at least one surface of the connector by a locking mechanism (40).
