Abstract (en)

[origin: WO0209789A2] The invention relates to a medical technical product used for adhesion prophylaxis for preventing post-operative adhesions in the body. The inventive product comprises at least one PVA (polyvinyl alcohol) selected from the group of uncross-linked PVA having a molecular weight of from 15000 to 400000, cross-linked PVA and mixtures thereof. The molecular weight of the PVA or of the mixture is selected so as to be substantially discharged via the kidneys without a degradation of the PVA molecules.
