Abstract (en)
[origin: WO0211955A1] The invention relates to a tool box, in particular for the accommodation of portable worktools, which may be stacked in a vertical direction (1). The tool box comprises a shell-shaped lower piece (2), with an opening (3) in the vertical direction (1) and a cover (4) for closing the opening (3). Stacking supports (5) are provided on the lower piece (2), which run in the vertical direction (1), between which the cover (4) lies when in the closed state and upon which the lower piece (2) of a stacked tool box rests.
