Abstract (en)
[origin: EP1306299A1] The ship has an open or semi open main public space (4), which is situated around the axial longitudinal plane of the ship at the base of the port, and starboard longitudinal superstructures (3). The port and superstructures are located away from the axial longitudinal plane so that the ratio of the width of the superstructures and public space to that of the ship lies between 1.3 and 3.
