Abstract (en)

[origin: EP1306309A1] The packaging container has a rectangular carton (2) with a delivery opening (3), closed by a pivoted flap (5), provided by folding and gluing a stamped out blank. The flap has sidewalls (7,7'), extending parallel to the pivot direction of the flap over the full sector between the closed position and the delivery position, at least one sidewall having a stop for limiting the outwards pivot movement of the flap.
