Abstract (en)
[origin: WO0211571A1] Process for waterproofing a semimanufactured product (1) of shoes, clothing items and accessories, said semimanufactured product (1) having a three-dimensional conformation, at least one inner surface (2) and one outer surface, characterized in that it comprises the following operative steps: turning inside out the semimanufactured product (1) so that its inner surface (2) is turned outwards; inserting at least one shaped member (4; 8) inside the semimanufactured product (1); pressing the semimanufactured product (1) provided with the shaped member (4; 8) between at least a pair of sheets (5) of a semi-permeable membrane whose surface turned toward the semimanufactured product (1) turned inside out is provided with a glue pattern; turning the semimanufactured product (1) so that its inner surface is turned inwards. The present invention also relates to a device for carrying out said process and the semimanufactured products obtained with said process.
