Abstract (en)  
[origin: WO0214166A1] A package and two part blank for forming a package for carrying one or more articles (A) comprising a carton having a plurality of wall panels (12, 14, 16, 18) for forming a tubular structure wherein each end of the carton is closed by a first panel (24) hingedly connected to one (16) of the wall panels, an intermediate panel (28) hingedly connected to another wall panel (14) of the carton and adapted to be placed in face contacting relationship within the inner face of the first panel (24). There further comprises within the carton an insert structure (1) for supporting the one or more articles (A) including a second panel (54). An aperture or recess (46) is provided in the intermediate panel (28) such that glue (G1) applied to an outer face of the second panel (54) and the intermediate panel (28) secures together said first, second and intermediate panels (24, 54, 28) when placed together in face contacting relationship to close the end of the carton.
