Abstract (en)

[origin: WO0214460A2] The invention relates to a washing, rinsing or cleaning agent dose comprising a fully or partially water-soluble coating in the form of a capsule, a ball or a bag. Said coating completely surrounds a liquid-based formulation of at least one washing, rinsing or cleaning active ingredient having a crushing resistance of > 1 N at 23 DEG C. The invention also relates to a method for producing one such washing, rinsing or cleaning agent dose, in addition to a method for washing, rinsing or cleaning using said washing, rinsing or cleaning agent dose.
