Abstract (en)
[origin: EP1310598A2] Finisher comprises a chassis (1), an inlet board (5) hinged via arms (6), a base board (7) and an outlet board (8). The angle of the inlet board can be adjusted via an adjusting cylinder (12). Hydraulic supporting cylinders (21) are arranged between the rear region of the chassis and the outlet board and/or board parts (9) of each side. The cylinders are impinged with an adjustable hydraulic pressure in the direction of the ground when the finisher is started up. Preferred Features: The supporting cylinders are hinged on the chassis on the piston side and on each outlet board and/or the board parts on the piston rod side. The chassis has hooks (20) for a trailer.
