Abstract (en)

Washing machine (10) such as an industrial or hospital dishwasher, equipped with a washing chamber (11) for equipment to be washed, at least two rotating elements (12) arranged in the washing chamber (11) which have delivery nozzles (15) able to deliver cleaning liquid, hydraulic feed means (20) able to make the cleaning liquid circulate between the washing chamber (11) and the rotating elements (12), and pipes (13) which connect the feed means (20) to the rotating elements (12) and to the washing chamber (11). The pipes (13) and the rotating elements (12) have a size such that the volume of liquid present inside the pipes (13) and the rotating elements (12) is equal to 5%-15% of the overall volume of liquid circulating inside the entire washing machine (10). The overall volume is around 5 l. <IMAGE>
