Abstract (en)

[origin: WO0219004A1] The invention relates to a method and fixing device for fixing an electric and /or optic cable provided with a sheath (2) onto the end-piece of a cable (1'). According to the invention one end (21') of the cable sheath (2) is placed around an edge of a holding element (8) and is secured against extraction. The invention makes it possible to connect a cable to the end-piece of a cable in a simple, economical and reliable manner.
