Abstract (en)
[origin: WO0219870A1] A process for the production of seats and furnishings elements comprises the following succession of steps: cutting from a strip of leather, hide, and imitation leather soft and extensible natural and synthetic materials, a sheet (10, 12) whose profile depends on the final configuration one wishes to obtain and smaller sizes; incision on the surface of said sheet (10, 22) to obtain through-cuts or apertures (12, 24), and extension and tensioning of sheets (10, 22) for the connection of the same to a supporting frame (16).
