Abstract (en)

[origin: FR2813184A1] The invention concerns a cosmetic composition, for skin and/or skin appendage and/or lip care and/or make-up, in the form of an emulsion or an anhydrous gel, comprising a non-volatile hydrocarbon oil having a mole weight ranging between 230 and 280 g/mol, a chemically inert particulate phase and optionally a non-volatile silicone compound compatible with the non-volatile hydrocarbon oil. The invention also concerns a method for care and make-up of the skin, skin appendages and lips using such a composition. More particularly, the invention consists in a matt, non-migrating and long-lasting skin make-up product comfortably worn in time.
