Abstract (en)

[origin: WO0221636A1] The invention relates to a device associated with an emblem and/or a characteristic structure (6) of a motor vehicle enabling the emblem and/or the characteristic structure (6) to be kept free, for example, from snow, ice, dirt and water. The invention is particularly useful when the emblem and/or the characteristic structure (6) is assigned to a transmitter (16) to transmit electromagnetic waves, especially radar waves.
