Abstract (en)

A prefabricated modular element (10), especially suitable to form continuous walls or noise-barriers, having a rectilinear or a mixtilinear development, obtained from concrete or other suitable materials, comprises a base (12) having a rectilinear development, and at least an integral container (4) which cantilevers from the front of said base, vertically oriented and forming a wall having a substantially rectangular profile with a height markedly shorter than its longitudinal extension. <IMAGE>
