Abstract (en)
[origin: WO0223030A1] The invention relates to a drive unit for a vehicle, with at least one drive wheel, comprising an internal combustion engine, a clutch, arranged between the internal combustion engine and the at least one drive wheel, for the transfer of a torque between the internal combustion engine and the drive wheel and a vehicle controller for control or regulation of the internal combustion engine, depending upon the speed of the clutch on the internal combustion engine side and/or the speed of the clutch on the drive wheel side.
