Abstract (en)  
[origin: EP1321077A2] A barrier post for a personnel barrier system, includes a column (6) that, in use, is arranged substantially vertically, a support base (4) at the lower end of the column and a divider assembly (8) towards the upper end of the column. The column (6) is at least partially hollow and has an internal chamber (22) defined by a circumferential wall, said wall being at least partially transparent. <IMAGE>
