Abstract (en)
[origin: EP1321174A1] The handle (2) is on the end of the first (8) of several telescopically interlocking tubes forming the stick. Near the end of the first tube facing the second tube (14) and opposite the handle, is a clamping part with elastically deformable sleeve which is placed against the inner surface of the second tube, by operating a lever (5) mounted on the handle. The second tube has a pointed end (25).
