Abstract (en)

[origin: WO0232254A2] The present invention relates to a unitary brush (such as a cup brush, for example) which has abrasive particles secured to at least some of its bristles via a first coating. The unitary brush is made by providing a unitary brush, coating at least a portion of the surfaces of the bristles with a first coating, adhering abrasive particles to at least some of the coated bristles and curing the first coating.
