Abstract (en)

[origin: WO0225770A1] A portable communication apparatus (10) has a display (12) and a first antenna with a plane radiating member (50). The display (12) and the plane radiating member (50) are integrated in a multi-layer structure (16), which is built into the portable communication apparatus. The first antenna may preferably be adapted for satellite communication, such as GPS.
