Abstract (en)
[origin: EP1329394A1] The present invention relates to a toy container (1) for alimentary products, comprising an outer tub (2) and an inner tub (3) which is housed in said outer tub (2) and has the function of an actual container, and also comprising movable elements (12) mounted in an articulated manner on the outside of said outer tub (2) and relating to the toy function. Said toy container (1) advantageously allows the provision of movable elements (12), thus being extremely attractive for children, while ensuring a seal against the leakage of food or beverages. <IMAGE>
