Abstract (en)

Clinker for incorporation in a paving, having an upper surface, a lower surface, and four circumferential surfaces, namely two longitudinal surfaces and two end surfaces, the longitudinal surfaces having a length of approximately 20-22 cm and the end surfaces having a length of approximately 10-11 cm, at least one of the circumferential surfaces being provided with a profile having recesses extending over the full height, which recesses are limited by protrusions having flat abutment surfaces, the abutment surfaces being situated in the circumferential surfaces. <IMAGE>
