Abstract (en)  
[origin: WO0236729A1] The invention relates to bleaching compositions comprising radical initiators. More particularly the invention relates to laundry treatment compositions for the spot treatment of soiled articles and to a process using the said compositions. The invention provides a fabric treatment composition which comprises: a) a radical initiator, and b) liquid crystalline surfactant. The present invention further provides a method for the treatment of fabrics, which comprises applying to the fabric a composition according to the invention.
