Abstract (en)  
[origin: WO0235316A2] A data handling method combines search capabilities with analytical functionality. The invention provides advantages when dealing structured documents (such as electronic catalogs, XML documents, text documents, HTML documents, Internet documents, etc.) and other data stored in a computer system. Various embodiments include simplified ways to express search/analysis requests of a data set and also express results to such requests.  
[origin: WO0235316A2] A data handling method combines search capabilities with analytical functionality (Figure 1). The invention provides advantages when dealing with structured documents (115) (such as electronic catalogs, XML documents, text documents, HTML documents, Internet documents, etc.) and other data stored in a computer system. Various embodiments include simplified ways to express search/analysis requests of a data set (102) and also express results to such requests.
