Abstract (en)

[origin: EP1331438A1] The cleaning device (1) includes a lance (2) for delivering a stream of water into the water tank (110), and a tubular body (3) associated with the lance for evacuating water from the tank. The lance is connectable to a source of water under pressure. The device is configured to be introduced into the tank via an accessible opening (112) of the tank, and to be connected to the accessible opening.
