Abstract (en)
[origin: EP1332686A2] To provide a novel set of cloth wearable as one piece or two pieces, which have a structure in which a top wear and a bottom wear may be taken off or put on together in a detachable manner with ease by utilizing a waist adjuster of the bottom wear (a waist adjustment mechanism of the bottom wear) for fastening and adjusting a degree of looseness of the waist, which structure may be used as a waist adjustment mechanism in a normal specification without any change in the case of two pieces without coupling, and in which the top wear and the bottom wear may be coupled together in the same manner as in the waist adjustment while making it possible to perform the waist adjustment by utilizing the waist adjustment mechanism of the bottom wear in case of one piece with coupling, without deteriorating an aesthetic design of the wear and with a remarkable superiority in practical applicability. A waist adjustment strip 3 is provided at the waist position of the extendible bottom wear 2. A strip retainer 4 passing through the strip 3 is provided. A waist adjustment mechanism W passing the strip 3 through the strip retainer 4 for fastening and retaining the strip 3 and for adjusting looseness of the waist position is provided in the bottom wear 2. The strip 3 of the waist adjustment mechanism W is inserted from a back side to a top surface side into a coupling hole 5 provided in the waist position of the top wear 1 is arranged on the top surface side of the waist position of the top wear 1. The strip retainer 4 provided on the top wear 1 or the strip retainer 4 provided on the bottom wear 2 is passed from the back side to the top surface side in the coupling hole 5 provided in the waist position of the top wear 1. The strip 3 is inserted into and retained at the strip retainer 4 arranged on the top surface side of the waist position of the top wear 1. The top wear 1 and the bottom wear 2 are coupled detachably with each other by using the waist adjustment mechanism W of the bottom wear at the waist portion. <IMAGE>
