Abstract (en)  
The present invention relates to a prefabricated panel suitable for use as a wall, a floor or a roof panel for a building or a vehicle body, characterised in that the said panel comprises an inner skin (12) and an outer (13) skin defining a central space (11), and at least one pultrusion attached to the inner (12) and outer (13) skins at an edge of the panel for interfitting with an opposing pultrusion unattached to the inner (12) and outer (13) skins.
