Abstract (en)

[origin: EP1333415A2] Board-like holder for signs and other information carriers (2) comprises a lower edge strip (7) arranged between two lateral edge strips (8, 9) so that the lower ends (16) of the lateral edge strips are free and a hollow chamber located inside the lateral edge strips and joined to the edge of the lateral edge strip on which the protective cover (5) lies is open at the bottom. A groove-like chamber for joining the lower edge of the protective cover and the information carrier is distributed over its length and lies open over a large part of its longitudinal extension. Preferred Features: A seal running along one edge and lying on the protective cover is arranged on the edge of each lateral edge strip.
