Abstract (en)

[origin: EP1333535A2] The plug socket (1) has an attached physical contact protection device with a housing (3) containing spring-loaded longitudinal sliders fitting across insertion openings (7) for the plug pins, opened upon simultaneous insertion of both plug pins. The top surface of the plug socket has an angled face (5), the housing of the physical contact protection device having a corresponding wedge shape, for accommodating the wedge-shaped sliders, provided with wedge-shaped cam surfaces (8) engaged by the plug pins.
