Abstract (en)

[origin: WO0233568A1] A method for presenting a user selected status of an object in a three dimensional graphic display is disclosed. The method includes the step of receiving a request to select a property of an object for display. The method further includes the step of displaying at least one property which may be displayed for the object. A selection of a property is received and the value of the selected property for the object is determined. The method further includes the step of generating a status indicator based on the value of the selected property. The status indicator is then displayed relative to the object. In a preferred embodiment, the form of the status indicator is automatically determined by the system. An apparatus for implementing the method is also disclosed.
