Abstract (en)

[origin: EP1335083A1] The method involves fixing at least one tie rod (3) to the mast in its longitudinal direction, whereby one end of the tie rod is attached to one corner strut (1) and the other end is fixed to the base (2) or to a corner strut, whereby the tie rod is placed under tension. One tie rod can be mounted along a corner strut with its upper ad attached to the strut and the lower end to the base.
