Abstract (en)

[origin: WO0241172A2] The invention relates to a method for the preparation of the instruction manuals for household appliances, corresponding device and an information system. According to the invention, a method and corresponding device for the improved provision of instruction manuals to customers can be achieved, whereby a message (8) requesting a current instruction manual is sent from a household appliance connected to a distributed network (3) to a service provider (6) and the instruction manuals are received in the location of household appliance (2) over the distributed network (3).
