Abstract (en)

[origin: WO0241569A2] The invention relates to a method for controlling a domestic appliance, to a corresponding device and to a control system. The aim of the invention is to provide an improved method and a corresponding device for controlling a domestic appliance. To this end, the domestic appliance (2) is linked with a network (3) and receives control information (8) from a provider (6) via the network (3). Said control information (8) is evaluated and/or implemented at the location (A) of the domestic appliance (2).
