Abstract (en)

[origin: WO02092930A1] The invention relates to a self-adhesive band for closing, sealing and glueing gaps in building construction, more particularly gaps in corners and edges, comprising a carrier layer (1) on the upper side of the band and an adhesive layer (2) on the bottom side of the band, said adhesive layer being provided with a tear-off cover film (3). According to the invention, at least one lateral longitudinal segment (7) is provided in which both the carrier layer (1) and the adhesive layer (2) are perforated.
