Abstract (en)
[origin: EP1341280A2] The arrangement has at least one isolating strip with plug contacts in a pattern, at least one earth contact or point, an excess voltage protection module for double wires of the isolating strip, a wiring carrier, especially a circuit board, with contact pins on one end corresponding to the plug contact pattern, excess voltage drains wired in accordance with a protection circuit and at least one earth connection in the contact pin plane. Independent claims are also included for the following: an excess voltage protection module and an earthing arrangement.
