Abstract (en)

[origin: WO0242557A1] The invention relates to a solidifying agent and/or stabilizer for organic material, comprising a silylated derivative, dissolved in an unpolar solvent, of a compound that contains hydroxyl, carboxyl or amino groups. The invention further relates to a method for solidifying and/or stabilizing organic material, wherein said solidifying agent is used. The solidifying agent is inter alia used to preserve and restore paper, wood, textiles, paints and inks.
