Abstract (en)

[origin: WO02065606A2] Compact and integral arrangements for an energy-conditioning arrangement having various predetermined energy pathways utilized in part for the purpose of conditioning energies of either one or multiple of circuitry. Some energy-conditioning arrangement variants can be operable to provide multiple, energy-conditioning operations.

[origin: WO02065606A2] Compact and integral arrangements for an energy-conditioning arrangement (10005) having various predetermined energy pathways (S-L-C2) utilized in part for the purpose of conditioning energies of either one or multiple of circuitry. Some energy-conditioning arrangement variants can be operable to provide multiple, energy-conditioning operations (19200).
