Abstract (en)

[origin: WO0236154A2] The invention relates to the use of procollagen (III) propeptides and related substances for treating fibrotic diseases and to a method for producing and renaturing recombinant N and/or C-terminal procollagen (III) propeptides. Said procollagen (III) propeptides and related substances are suitable for treating fibrosis of any type, of any organ manifestation. The invention also relates to a method for producing renatured N-terminal procollagen (III) propeptide and/or C-terminal procollagen (III) propeptide.
