Abstract (en)

[origin: WO0242083A1] The invention relates to a printer for printing a collated multi-page document (1020) when presented with a plurality of manually collated pages (1012), the printer including a code sensor (1024) which senses machine-readable codes on the manually collated pages (1012), a control unit (1040) which uses the machine-readable codes to identify and retrieve previously stored electronic versions of the pages, and a print engine (1026) which prints the retrieved pages.
