Abstract (en)

[origin: WO249936A2] A foldable, unitary, packaging means for use in conjunction with one or more blister pack(s) containing medicament comprising: (i) a first surface area presenting the medicament/blister pack(s); and (ii) a second surface area presenting text containing information/instructions relating to the medicament; wherein the ratio of the first surface area to the second surface area is greater than 1:2. The invention also extends to processes for preparing the said packaging means and uses thereof.
