Abstract (en)  
[origin: EP1344887A1] The tipping window has a window plate (10) for a cellar window (11) and a rectangular frame (12) which can be rotated and tipped. The window tip occurs via a lower horizontal axis (13) The frame can be made from plastic and on the left underside is a tipping housing (16). On the lower right side is a tipping and rotating housing (17) and a flat profile (18) on the upper right is made from metal pr plastic and connects the housings and frames.
