Abstract (en)  
[origin: WO0250804A2] The invention relates to an electrical domestic appliance with a preferably cabinet-shaped housing. Said housing is provided on its front face (2) with a label in the form of a trademark formed by a glass body (5) concerning the origin of the appliance. In order to make the trademark stand out even more, the trademark is constituted by a component (5) or by a group of components that consist of a transparent or translucent material, and is linked with at least one light source (9), mounted on the interior of the housing, in such a manner that light is emitted forward from the outer surface of the trademark when the light source is switched on.
