Abstract (en)

[origin: WO02054739A2] A text message (text1, , text3) is transferred to the calling mobile station(R_MS), from a memory unit (SPE1, SPE2, SPE) in which the text message (text1, , text3) is stored, by means of the mobile radio network to signal the rejection of a connection request.
[origin: WO02054739A2] A text message is transferred to the calling mobile station, from a memory unit in which the text message is stored, by means of the mobile radio network to signal the rejection of a connection request.
