Abstract (en)

The electrical cable reel has first (1) and second (2) hinged sections. The second section has a seating for reeling of the cable (22). A folding flap (12) allows access to one or several storage compartments. The reel has a use position in which the two sections are spaced from each other and have engagement surfaces (19,29) for the ground.

Abstract (fr)

L'invention concerne un dispositif d'enroulement de câble. Il comporte une première (1) et une deuxième (2) parties articulées entre elles, la deuxième partie (2) ayant un logement pour un enrouleur de câble (22). En position d'utilisation, le dispositif est autoportant et peut par exemple servir d'escabeau. Un volet rabattable (12) peut donner accès à un ou plusieurs compartiments de rangement. <IMAGE>
