Abstract (en)

[origin: EP1347115A2] Production of drained slabs (24) made from concrete, natural stone and ceramic slabs comprises applying a sealing layer (14) on the upper side of the bare brickwork (10) of a balcony or terrace having a floor layer (12), laying a drainage layer provided with a filter mat (18) on the sealing layer, applying adhesive having no hygroscopic properties on the filter mat in the corner points of the slabs to be laid, placing the corner regions of the slabs to be laid at a distance from each other, and adhering together after binding or hardening. Independent claims are also included for the following: (1) Arrangement of slabs on the bare brickwork of a balcony or terrace; and (2) Stencil for applying adhesive for carrying out the process.
