Abstract (en)
[origin: EP1348633A1] The box, generally of cardboard, is supplied flat and is assembled prior to use. Its base comprises four panels - two end panels (5, 5') and two side panels (6, 6'). The end panels have cuts (15, 16; 15', 16') and fold lines (11, 12) to make tabs (13, 14; 13', 14') that are inserted into slots (18, 19; 18', 19') in the side panels and folded over to form a closed base. The folded tabs are located on the inside of the base and make direct contact with its contents.
