Abstract (en)

A description is given of a method for producing a decorated textile article, comprising the following steps: inserting at least one needle into at least one textile layer; with said needle, grasping a quantity of fibers from the textile layer and causing the fibers, grasped by said needle, to appear on a front surface, by extracting the needle from the textile layer; and repeating steps a) and b) to form said design motif consisting of a sequence of stitches formed by the fibers which are caused to appear on the surface by said needle. <IMAGE>
