Abstract (en)

[origin: WO02051706A1] The system comprises, for each packaging machine (1, 3, 5, 7, 9) a casing structure defining a parallelepipedal space which, in plan view, has sides of a length equal to corresponding integer multiples of pre-set modules. The structure comprises connecting frames (1D, 1E; 3D, 3E; 5D, 5E; 7D, 7E; 9D, 9E) which develop mainly in a transverse vertical plane and have pre-set dimensions as chosen in a modular series.
